Tech-Driven Solutions for Women's Safety & Empowerment

## Legal Protection Against Violencee

Laws like the Vishaka Guidelines and POSH Act protect women from harassment and violence. Our AI-powered legal support simplifies reporting and access to justice.

01

Smart Safety Solutions

Wearable SOS devices and instant emergency alerts provide real-time protection in dangerous situations.

911
EMERGENCY CALL

02

Mental Health & Well-being

AI-based support chatbots & free therapy sessions offer emotional support and counseling.

03

Cyber Safety & Deepfake Protection

Advanced AI tools detect cyber threats, online harassment, and deepfake exploitation, empowering women to take action.

04

Career Growth & Financial Independence

AI-driven job matching & skill-building programs help women secure stable careers and financial freedom.

05

Stay Connected & Aware

Regularly check in with trusted contacts and stay aware of your surroundings. Utilize safety apps and community support to enhance personal security and well-being.

06

Safer Work Environments

Women in factories, domestic work, and informal sectors face unsafe conditions. We provide legal awareness & workplace security solutions to ensure their safety.

05

Empower. Protect. Thrive. 🌸
💪 Together, we build a safer future.
